

END YOUR TELEHEALTH HEADACHES

# FOCUS

ON PROVIDING CARE WITH

## SECUREVIDEO

SecureVideo is a cloud-based telehealth platform that's secure, reliable and flexible for your use case. Designed to deliver the best possible telehealth experience, our HIPAA-compliant, low cost, easy-to-use solution is backed by friendly customer support experts who take the time to ensure your success.

Live service representatives are available to answer any technical question for you and your patients to ensure visits proceed as planned. We are here to help you focus on patient care—not technical issues.

Our platform serves over 5,000 doctors, clinicians and hospitals. We believe telehealth should be reliable with the best video quality, dedicated connectivity, and best-in-class security. SecureVideo is designed for your best outcomes.

### WHO WE SERVE

- ◀ Medical Practices
