

Interpretation Services for Telehealth

One of SecureVideo's values is to create a better telehealth experience through product innovation. To that end, our platform now offers on-demand, live remote interpretation services to increase telehealth access for those who may otherwise experience a language barrier.

Our platform allows users to easily add a certified interpreter with just a few clicks!

About the Service

- ▶ Available in over 240 languages, including American Sign Language (ASL)
- ▶ HIPAA compliant
- ▶ Simple, usage-based pricing model
- ▶ 24/7 access to live, certified interpreters
- ▶ Service within a few minutes
- ▶ May be enabled account-wide, or for specific users only

How it Works

- 1 Log in for your SecureVideo telehealth session
- 2 Click "Call Interpreter Now" from your dashboard
- 3 Select your needed language from the dropdown menu
- 4 Watch a real-time status tracker as your interpreter connects
- 5 Enter your session and begin communicating with your patient or client!

Pricing \$1.25 per minute of service used, automatically included in your monthly billing

ABOUT SECUREVIDEO
