Reach a professional medical interpreter in a matter of seconds.

Voyce is a real-time, on-demand medical interpretation service, **available at this location 24/7**. Our interpreters are trained to help patients and healthcare providers communicate with confidence.

Voyce can improve the quality of care between you and your patients.

100% satisfaction rating from patients

92% satisfaction rating from staff

80% of patients say they are less anxious about their care

*Data from CAN Health Network, St. Mary's Report, 2022

Voyce enables seamless communication when and where it matters most.

Patients can request to use Voyce from their healthcare provider. Using a mobile device, an audio or video interpreter will connect in an **average of 30 seconds or less**.

Available here in 240+ languages and dialects, including ASL.

ASL Interpretation

Voyce offers ASL (American Sign Language), Trilingual Interpretation (Spanish-English-ASL) and Certified Deaf Interpreters (ASL CDIs).

"I chose Voyce for the care, passion, and support they assured would be their priority. Caring for the patient and their rights with a passion for providing quality healthcare is important to me and they always help meet the language interpreting needs for all our patients."

Nicole Francois

Chief Patient Experience Officer at
Brookdale University Hospital Medical Center
