

### A compassionate ear, a capable voice.

Reach a professional medical interpreter, on-demand, from your SecureVideo dashboard, in a matter of seconds.

## Communicate confidently with your patients.

Our professional and qualified medical language interpreters connect on average in less than 20 seconds and collectively service 243 languages and dialects, including American Sign Language (ASL), Hmong, K'iche, Karen, Mixteco, Burmese, Ukrainian, Dari, and Pashto.

### Carlos Olvera

Manager, Interpreter Services at Rush University Medical Center

"Voyce is extremely user-friendly and the interpreters are very attentive. The implementation team at Voyce was fantastic and was very helpful to ensure a successful launch. Our patients and providers love using Voyce."

### Nicole Francois

Chief Patient Experience Officer at Brookdale University Hospital Medical Center

"I chose Voyce for the care, passion, and support they assured would be their priority. Caring for the patient and their rights with a passion for providing quality healthcare is important to me and they always help meet the language interpreting needs for all our patients."

### Compliance and Integrity

Voyce is compliant with all health privacy legislation, such as HIPAA.

### Accessible From All Points of Care

Voyce connects patients to the care they need through our integration with SecureVideo. This ensures providers can engage with a Voyce interpreter on demand, anytime.
