

Maximize Your Telehealth Platform

With your telehealth solution, SecureVideo, there are many features available that help you maximize the telehealth usage for you and your team.

Use this checklist to see if you're using SecureVideo to its full potential!

- Customized Branding (logo, colors and a custom URL)
- E-Documents/E-Signatures
- Automatic Reminders (with customizable reminder schedule)
- Virtual Clinic (On-Demand or Appointment-Based)
- Secure Chat Messaging & File Transfer
- Dual Video Engines (Zoom and/or One-Click)
- Advanced Reporting
- Customized Virtual Waiting Room
- Group Sessions (for up to 300 participants)
- Customizable Display Name Field
- Interpretation Services
- Masked Calling
- Cloud or Local Recording
- Advanced Zoom Features
- Role-Based Access (Scheduler or Billing Manager roles)
- Payment Acceptance
- APIs for System Integrations

If your organization is not using these features, talk to our Account Management team for an account review so you can:

Use the system to its full potential
