

Telehealth Group Sessions with SecureVideo

Group therapy in telehealth offers numerous benefits, such as the opportunity to connect with others who share similar experiences, reduce feelings of isolation and loneliness, and provide a sense of community.

SecureVideo has a robust group session feature that helps patients and providers.

Features of Group Sessions with SecureVideo

- ▶ Easy scheduling interface, with the ability to add multiple participants
- ▶ User friendly dashboard to manage sessions
- ▶ Excellent video quality, with up to 300 participants
- ▶ Ability to change the display name of participants for privacy
- ▶ Ability to change the host to another provider within your practice, for coverage during time-off

How to Use Group Sessions

- 1 Participants can be added one at a time, or through a contact group set up in advance
- 2 Unique links are automatically provided in participants' invitations and reminders, along with a series of two automatic reminders
- 3 Recurrence can be added for regular weekly or monthly sessions; new invitations and reminders are sent out for each session automatically
- 4 Reports track attendance of each individual in the group session

All of this functionality is built into our telehealth solution for no additional cost.
